Introduction

International Benevolent Research Foundation (IBRF) has been established on the auspicious occasion of the National Teacher's Day on 5th September 2015 based on its incorporation as a Charity under the Central Act II of 1882, Government of India in Kolkata with the main objective of locating avenues for alternative employment creation besides designing a neological as well as neocratic approach to research and entrepreneurship in the field of education among the younger generation all over the world in general and India in particular with a view to bringing peace on earth in the third millennium by having country wise appropriate solutions for the burning problems like peacelessness, poverty, greed, unemployment, faulty educational, training and research methodologies, religious intolerance, etc., The International Benevolent Research Foundation (IBRF) has decided to design a master plan paradigm (2016-2025) for a new world order.

The activities of IBRF will include the strategies for creating more researchers besides transfer of appropriate technologies among the globe for ensuring a balanced and a sustainable growth in all countries of the world by using clean as well as cleaning-up technologies through new and emerging techniques for climate change management, environmental and disaster education, geriatric care, waste management, green business and technologies besides strengthening of diplomatic relations among nations for protecting our Mother Earth.

The idea is also to promote entrepreneurial educational leadership among the school and the college going boys and girls by "Catching Them Young" and for designing appropriate messages for the educators to see that they produce a greater number of job givers rather than job seekers. This will be possible as IBRF has the qualified inventory of experts for establishing universities, colleges, institutions, schools and other training enterprises in different countries with the latest equipment and infrastructure for conducting formal, informal, nonformal, open, distance, online, internet and webbased employment-centric programmes in all countries of the world.

Activities of IBRF

"International Benevolent Research Foundation" (IBRF) envisions providing an impactful forum of dialogue amongst educationists, policy makers, industrial and business community and the media.

IBRF encourages inclusive social development through the spread of universal quality education and supports the involvement of communities and citizens in the endeavour.

1. Consultancy to the selected institutions for the establishment of universities, colleges and centres of excellence besides skill development enterprises with a view to solve the problems of unemployment.
2. Launching of Bachelor's, Master's and Doctoral Degree Programmes through mutual and technical cooperation for initiating study and research based activities in the areas of hotel management, catering technology, information sciences, business and related issues of business and administration, geoinformatics, bioinformatics, human rights, intellectual property rights, engineering, medical sciences, geriatric care, disaster management, sustainable development, ecology and environment etc.
3. Conducting environmental impact assessment along with pollution monitoring and control in sugar, leather, petro-chemicals, pharmaceuticals, cement, paper, rubber, steel, thermal power plants and mining industries.
4. Collaboration for scientific and industrial research work for promoting technological innovations in different fields.
5. To honour and award persons and institutions for their contribution towards the development of educational achievements including socio-economic development.
